

Veterinary MRI Centres currently offering or interested in (reduced cost) scanning.
Breeders are advised to establish if the MRI centre is using the suggested protocol for the proposed BVA/KC scheme.

UK

The cost is generally around £200 – £300 inclusive of VAT per dog. For most centres this includes the cost of interpretation and providing the certificate. Some centres offer a discount for more than one dog. Some centres scan the head & cervical region under sedation, some others use anaesthesia.
